

Welcome to ITT Mission Systems

Join Our TEAM

- Space Ground and Range Systems
- Systems Support Services
- Contingency Operations
- Communications and Information Systems

- At ITT Mission Systems, we provide critical products and services that support the missions of government operations in the US and abroad. We seek highly motivated and skilled employees who want to exceed the expectations of the customer we serve. We work side by side with the government on logistics, communications, engineering, sustainment, vehicle maintenance, food services, security and facility support operations. For military job seekers who want to stay in a career supporting national security, ITT Mission Systems is an ideal choice for employment.
- **We have a current surge need for a variety of M1 Abrams, M2 Bradley, Track and Wheeled Vehicle Mechanics.**
- The ideal candidate would have a current US Passport and be available to deploy to Kuwait within the next two weeks, some positions will also require a current Secret clearance.
- If you are experienced servicing and maintaining military vehicles and are interested in hearing more about this current opportunity, please view our many open positions and post your resume at: <http://www.ittsystems.com/careers.htm>
